

## **Treasurer's Office 2012 Accomplishments**

Had a relatively smooth transition to new treasurer with 3 long term employees in the office retiring in just over 1 year.

Implemented new BS&A PRE module and took over PRE billings from equalization.

Continued to grow the use of BS&A software for delinquent tax collection and settlement with townships. Implemented e-filing with Register of Deeds for Certificates of Forfeiture saving time and resources for both departments.

Had successful property auctions with all county parcels either transferred to the land bank or sold.

Worked with G5 townships to refund Septage Treatment 2003 Series bonds. County paid 50% of the refund which will generate interest income in the future while reducing the interest rate of the bonds overall.
