

NO Wipes in the Pipes!

Biodegradable or Disposable should NOT be flushed!

Convenience wipes such as baby, hygienic, cleaning and disinfectant, as well as toilet bowl scrubbers and even paper towels might be labeled as “disposable or flushable” but these items should NOT go down the drain. Products like these do not disintegrate or break down in the sewer system causing plugs in sewer pipes and pumps, resulting in sewage backups, costly cleanups and environmental consequences that can result in rate increases for both you and your neighbors.

How can **YOU** help?

Do not flush objects down the toilet such as wipes, diapers, feminine hygiene products, or dental floss.

Dispose of these items in your household or business trash receptacle.

Inform those who clean your house or business of proper disposal methods for convenience products.

Select cleaning supplies that can be washed and reused.

The following items should **never** be flushed down the toilet:

Diapers—cloth, disposable, flushable

Facial tissues

Baby wipes, disinfectant wipes, moist wipes, etc.

Toilet bowl scrub pads

Swiffer pads

Napkins—paper or cloth, paper towels

Dental Floss

Egg shells, nutshells and coffee grounds

Fats, oils and greases of any kind

Food items containing seeds and peelings

Hair

Sanitary napkins, tampons, condoms or any non-organic material

Vitamins, medicines or other pharmaceuticals

Wash clothes, towels, rags (no cloth whatsoever)

Plastic of any kind

Cat litter

Bottom-line—*Nothing* should be flushed except toilet paper and human waste!
